

Hear what our graduates have to say:

In Ammiel Wan Academy, I get to try out and practice many different types of questions, until they were not as intimidating as before. The weekly sessions have helped me to have a better understanding of math, and allowed me to have an advantage when tackling complex questions. The worksheets are filled with common or challenging questions so that we gain exposure to a variety of question types. Mr Wan is engaging and ensures that all his students understand the concept behind each question.

Clarice Lee (Nan Chiau High School)

I could clarify my doubts anytime, as and when I had a question. The weekly homework assigned to me helps serve as a continuous revision for me. Furthermore, the questions in the worksheets tested a variety of mathematical skills, as well as their applications. Ammiel Wan Academy allowed me to learn techniques that I could have never learnt in school. My Additional Mathematics grades improved from a B4 to an A1 after joining Ammiel Wan Academy, and I could have a clearer understanding of the topics I was learning.

Not every tuition teacher would allow his students to text him an reply to any questions they had. One of the strengths of Mr Wan is that he sincerely cares for the students and constantly reminds us to do well not for his benefit, but for their own good. Another strength of Mr Wan is that he is strict. His strictness is what drives me to put all my effort into doing his homework.

Tabitha Lau (MGS)

My time at Ammiel Wan Academy was fulfilling and enriching. It has benefitted me that I was able to understand the different concepts much more easily. The worksheets provided sufficient practice for me to apply the knowledge I've learnt to master the techniques for answering certain questions. There was no time wasted in every lesson as I feel that I was able to learn something from every lesson. The lessons have helped me improve my Mathematics and made me more confident in answering questions since Mathematics was one of my weaker subjects before entering Ammiel Wan Academy. Mr Wan simplified the Mathematics concepts which made it much easier for me to understand the topic. He made the lessons engaging and by asking students to answer questions, I feel that it gave students the drive to do their work to be able to answer the questions. Mr Wan also managed to make full use of the time we have in lessons as he managed to go through chapters quite quickly and effectively while ensuring that all students were able to understand.

Cheryl Yap (Nan Chiau High)

It has benefitted me because I get good grades for Maths, thanks to Mr Ammiel Wan. Mr Wan teaches lessons very well and helps me even outside of lesson time. Yes, the programme is simplified such that everything is taught in a concise manner. Mr Wan teaches well and makes concepts easy to understand.

Irene Seo (SCGS)

It has exposed me to various types of questions, reinforced my understanding of concepts and provided me with practice outside of school. Yes, it helped pull up my grades significantly by solidifying my foundation. It has also familiarised me with tough exam questions.

Rachel Tan (Nanyang Girls High)

My time in the Academy has been great and fulfilling. I managed to learn Math topics before my school even taught them, giving me a headstart before my other peers. I also got exposure to ample practices for every topic, allowing me to fully understand the topics and grasp key concepts that come in handy during exams. It managed to lift up to my expectations. The programme was designed to suit students and their needs regardless of whether they are IP or O level students. There is also revision papers to constantly refresh our memories on specific topics. Mr Wan is also an enthusiastic teacher with a lot of passion in teaching. He never hesitates to answer questions from students and constantly pushes them to strive for the best.

Brian Bong (Hwa Chong Institution)

I look forward to every single lesson. The lessons are very structured, which helps me to keep up with the class pace and learn in an organised manner. Materials provided are extremely beneficial, which is complemented by an effective listen, then work lesson structure. Mr Wan has been my teacher for the past four years. From someone who hasn't done well in Secondary 1 to someone who is getting distinction for math, I would like to thank Mr Wan for helping me so much. Without his guidance, I would not have gotten my idealistic grades for mathematics. Thank you very much Mr Wan!

How Wun (Nanhua High)

After being in Ammiel Wan Academy for the past 8 years, it has definitely built my foundation for Mathematics and allowed me to understand as well as comprehend this subject better, developing my interest in doing Math. This Academy is not just an academy, but it teaches life skills and values that help strengthen our learning and understanding towards Mathematics. Moreover, the syllabus is very well planned and structured such that concepts are made manageable to grasp and the techniques and methods taught are also very relevant and insightful.

Mr Wan has always been extremely passionate about teaching and nurturing us during our lessons. He always goes the extra mile to ensure that we understand each concept thoroughly and leaves no student behind. Not only

does he teach us the concepts and skills, but he also puts in the effort to share with us important values like having a good attitude, which I feel is the biggest takeaway. The values that he has imparted definitely impacted the way I learn and serves as a constant reminder in my learning.

Andrea Lim (St Nicholas' Girls)

I have been in Ammiel Wan Academy since 2017, and have continued my journey here with Mr Wan from upper primary up till secondary 4 as of present, constituting my sixth year here. Since primary school, the lessons have always been very structured in terms of covering the various math topics, as well as tackling very challenging question types with clear steps as to how to do so. Moving into secondary school, these lessons have greatly helped in building up my math foundation since the very start, and week by week, we always complete many practice questions that greatly helped me in getting comfortable with the topics and their questions. Closer to exam season, we always start moving towards tackling practice papers. These practice papers have really challenging questions that always help in getting me prepared for exams, and has strong emphasis on discipline and consistent practice. As a result of the lessons giving me a strong foundation as well as constant practice on a weekly basis, I have always gotten A1s for both maths throughout my four years in secondary school.

I think the lessons definitely lived up to more than my expectations. Throughout all my years here, Mr Wan has been a teacher with a very strong and unique style of teaching that has made me very grateful to be learning mathematics from him. With many decades of teaching experience, Mr Wan is able to identify which areas a student is weaker in and always makes sure we understand the importance of discipline and putting in consistent hard work, which always outshines natural strength in a subject. When faced with challenging questions in the papers we do in class, Mr Wan always manages to solve them excitedly with clear explanations, due to his many years of experience in teaching the syllabus, and his clear professionalism and experience in the subject is something that I really admire. Overall, with Mr Wan teaching the lessons, one would definitely be able to do well in the subject if they are willing to put in the effort and time to work hard as well. I am very grateful towards Mr Wan, who has been my teacher for coming to a full six years now. As a person, Mr Wan has definitely made me understand what it means to work hard with discipline in order to do well, and I'm very thankful for the strong mathematics foundation I have acquired through his lessons over the years.

Hannalyn (St Nicholas Girls)

My experience in Ammiel Wan Academy has been unequivocally instrumental to the positive progress in my mathematical journey. I have been able to learn a multitude of things in an insightful manner with clear understanding. From the begging when I was struggling in 2019, I have been able to nearly double my overall score in examinations with the help of Mr Wan.

The experience that I had went through at AW Academy has exceeded all my expectations at the start. As an exceptionally direct and motivated tutor, Mr Ammiel Wan never fails to deliver an immensely educational lesson. Mr Wan is able to teach and impart key concepts to students in a precise and intelligent manner, and always checks up on each and every pupil to ensure that they understood what he taught, regardless of their strength in mathematics. He consistently ensures that work is handed in and that his students are making progress.

Jonathan Yeo (ACSI)

My time here has been really beneficial, I have definitely improved in both my technical skills and learning skills during the lessons. I've been able to grasp the concepts much quicker and do the questions with a lot more ease compared to previous times while also being able to adapt to different question types. My attitude and approach towards mathematics has changed positively within these 2 years and my grades have also improved a lot. The teachers here are very committed, always going the extra mile to help students with additional questions and even scheduling extra lessons just to revise before a test or exam.

The strengths of the programme is that it is very structured and organised, and the teacher would go from topic to topic seamlessly while ensuring that each topic is covered thoroughly. The solving methods used here, at times can be different from those taught in schools, are much less complicated and more efficient. He makes the concepts a lot easier to understand with straightforward examples.

Samanthan Chua (St Nicholas Girls)

I really enjoyed my time learning in AWA Academy! With Mr Wan's guidance and effective teaching, I managed to understand concepts better, and eventually I improved tremendously in both mathematics. I also started to enjoy doing math because it was easy to apply what I learnt in the academy to my practices. I am very grateful to Mr Wan for always believing in my potential and pushing me to do my best. Mr Wan is not only a great math teacher; he also ensures we have the right learning attitude so that we are always motivated to do well. Thank you Mr Wan for all your efforts!

Jamie Chan

St Nicholas's Girls School

The time I had at Ammiel Wan Academy was very unique compared to other enrichment centres. In the centre,, there was no time wasted and every time spent in VM was used effectively and efficiently. I am always amazed how little time it took to cover topics while I was still able to understand. Moreover, everything for every topic is covered in the centre which was extremely helpful. While workload can be a bit overwhelming at times, I appreciated that you were able to give us some leeway. Overall, I really appreciate the time spent in the Academy and am extremely grateful for you helping me throughout my primary and secondary school maths.

Luke Chin Yao
Maris Stella High

Having been in Ammiel Wan Academy since I was in Primary School, I think the experience has been a very fruitful one. This journey has truly helped me develop a passion for mathematics and build a strong foundation for me in my studies. What I have learnt at the academy definitely brought me to a higher level of understanding towards the subject and reduced my struggles in my exams. I really enjoy going for lessons at the centre as the teachers and students are all very friendly and hardworking, always adding to the spirit of the class.

Bliss Ong
Cedar Girls School (IP)

I have been with VisibleMATH/ Ammiel Wan Academy for the past 9 years and counting, and it has been an amazing experience. Mr Wan helped to lay a strong foundation of Math for me since the very beginning, and that has allowed me to grasp higher level concepts much easier. He is also dedicated and very willing to help students whenever we run into any problems. He will go the extra mile to ensure we understand the concepts, and that we can apply them effectively. The centre has helped me to gain confidence in mathematics and it was a really enriching experience!

Nicole
National Junior College (IP)

The past 5 years in Visible Math/ Ammiel Wan Academy has allowed me to gain an interest and passion in Math. Starting Secondary 1 with Ammiel Wan Academy helped me lay a strong foundation on the Secondary Math syllabus. Mr Wan's teaching allowed me to be able to understand the concepts easily and apply them in challenging questions. He is very devoted and ready to help students whenever we face any problems and will also dedicate his free time to answer our math problems from school. It was a really fruitful journey with the academy!

Serena
SCGS (IP)

Mr Wan is a passionate and nurturing teacher. I really appreciate how he is always willing to adjust the pace of lessons in order to suit our learning styles and also ready to clear any of our doubts and misconceptions. Mr Wan conscientiously selects a variety of advanced Math questions for us to gain exposure and teaches us answering techniques, rather than the model answer. I really enjoy his lessons and I've really benefitted a lot from them. Thanks Mr Wan!"

Loi Yixuan

Nanyang Girls High (IP)

My experience at AWA was a very pleasant one. I joined Mr Wan at P4 and has been with the centre for the past 7 years. Mr Wan is very clear in his explanation which helped me improve from a C to a A grade. In Secondary school, I managed to maintain the excellent results with his coaching. It was never a drag to attend class. His dedication in ensuring that we have sufficient practice every week helped me to become very focused and disciplined.

Christian Goh

SJI

Mr Wan was clearly the reason for my major improvements on both Amath and Emath from two F9s to now 2As . Overall, it is an interesting experience to study in the academy where I have learnt a ton of life values and also getting taught by Mr Wan.

Trecia

Presbyterial High

My time with VM and AWA has been absolutely wonderful for the last 7 years. When I initially joined, I had a strong dislike for Math and I had a lot of difficulty understanding the subject. However, after having taught by Mr Wan, he made the subject really easy to comprehend. Furthermore, he is able to come up with simple methods that can be applied to solve my problems easily. Over the years, I have learnt so much and grow so much in my math ability.

Josephine lhksan

RGS/RJC
